OBJECTIVE To Obtain a Career as a Graphic Artist/Web Developer
I hope to be part of an environment in which my talents can be utilized and where I can continue to learn from those around me.

EDUCATION Appalachian State University | Graduated May 09
BA in Graphic Arts and Imaging Technology
Minor in General Business

RELATED WORK EXPERIENCE June 09 - Present
National Agents Alliance
www.naaleads.com

Position: Designer/Web Developer (Marketing Team)
National Agents Alliance is an IMO based out of Burlington NC that collects leads, supplies training, and develops services for over 10,000 insurance agents nation-wide. As the marketing team's designer, I am challenged to create and maintain web applications, web sites, marketing campaigns, printed materials and anything else that requires a creative mind.

June 08 - June 09
AppNet New Media Studio
www.appnet.com

Position: Web Designer/Developer
AppNet New Media Studio is a web development and design firm with over 500 clients. My responsibilities in this position required skills from hand coding HTML and CSS, to working with content management systems.

September 08 - June 09
Sleight Studio
www.sleightstudio.com

Freelance Web Development & Design
Sleight Studio was a freelance web development and design firm created by Rob Farrell and myself. Together we have worked with a handful of clients to create everything from logo designs to customized dynamic websites.

May 07 - August 07
Minors Printing Company
www.minorsprinting.com

Position: Intern
Minors Printing Company is a lithographic print shop that specializes in long-run print and binding jobs. As an intern, I learned skills from platemaking in the prepress department to cutting and binding in the postpress department.
